## TERRIBLE DISTRESS.

The Condition of Many Cubans Is Most Deplorable.

### CONSULAR OFFICER'S ACCOUNT

Sickness and Starvation on Every Side. Those Still Alive Seem to Be Doomed. Charitable People of the United States Appealed To—Spain Acknowledges Distress—Other Cuban News.

CHICAGO, Dec. 4.—The Record's Washington special from W. E. Curtis says: The latest information from Cuba represents the distress as terrible. The state department, the Spanish legation and the marine hospital service have official reports from their respective sources, all of the same tenor. A movement is on foot for an appeal to the charitable people of the United States. It will have the full sanction and encouragement of the administration, and will be encouraged by the Spanish minister, who has asked his government to suspend the collection of duties on contributions from this country, and admit them free.

General Blanco will welcome material help from the United States in relieving the distress which he finds to be beyond his expectation when he began to undo the work of Weyler. The state department will co-operate in every way possible to make effective whatever may be undertaken by the citizens of this country. Plans for making use of the consular service in Cuba to distribute the relief, in conjunction with local authorities, are now under consideration. A letter from one of these consular officers makes it clear how, with the revocation of Weyler's infamous concentration order, there can be such distress now. This official of the United States writes:

"The situation on this island has reached a point where it is impossible to see what can be done to help the unhappy people and to save the majority of them from speedy death. It looks as if the greater part of the present generation was doomed to find its way quickly to the other world, no matter what may be done now. Perhaps no people can endure more hardship than the rural population of Cuba. They have learned by lifelong experience to endure privations. They have learned to be content with little. When Weyler's bands drove them into the towns, what did they find to subsist upon? Nothing at all. They kept life in them by what they could get through charity and by occasional expeditions, at the risk of being murdered by guerrillas.

"The weak, the women and the children failed first and most of the deaths were among them. Now, however, the whole body of reconcentrados is in a broken down condition. Those who were strong when concentration began are not able to work. A state of utter helplessness prevails. Those who survive the 150,000 who have actually perished seem to be doomed. If they are sent back to their farms they will die by tens of thousands. The Spanish troops and the insurgents have alternately ravaged the field, confiscating and destroying. If they are sent out from the towns these reconcentrados will find nothing to eat. They will have no shelter because the houses were almost universally destroyed.

"They have no tools with which to build the shanty, which would be the first step toward rehabilitation. Even the machetes, which every Cuban formerly carried of all manner of purposes on the farm, were taken away from them by Weyler's order. If these pacificos were the men that Weyler found them when he depopulated the provinces they might manage to subsist and in time to reconstruct their homes. But they are not. They are wasted and broken by the terrible years of starvation. Strength has departed. Spirit is broken. Anemia is claiming thousands. Only that food and care which these people are not likely to get could restore them to health. Weyler's accursed work continues after his departure."

### SPANISH ACKNOWLEDGE DISTRESS.

Forty Thousand Concentrados Starving in the Province of Pinar del Rio.

HAVANA, Dec. 4.—Senor Canallas the special commissioner of the Spanish has returned here from his visit to the province of Pinar del Rio. He says there are in the province 40,000 "concentrados." Peasants gathered in from the country in the towns for protection from the insurgents, or to prevent them from joining the enemy, and that they are all in want. Of this number 15,000 are orphans and the majority are children of tender years.

The commissioner adds that the concentrated are badly distributed. At Pinar del Rio, the capital, for instance, there are only 300 of these unfortunate people, while at towns like Consolacion and Candelaria there are over 4,000 of sufferers. The municipal authorities of such places, the commissioner says, are without resources and therefore unable to do anything to relieve the destitution.

It was officially announced here that the Spanish cavalry, in pursuing the insurgents under General Ducal, who is said to have been badly defeated recently in Pinar del Rio by the Spanish forces under General Bernal, has surprised an insurgent force, killing 19 of the enemy and capturing five mounted men.

### MASSO PRESIDENT OF CUBA.

Maximo Gomez Is General-in-Chief of the Army.

WASHINGTON, Dec. 4.—Consul General

al Lee has informed the state department that the insurgents in Cuba elected and installed at Yaya, in Porto Principe, on Oct. 20, the following officers: President, Bartolo Maso; vice president, Domingo Mendez Capote; secretary of war, Jose B. Aleman; secretary of the treasury, Earnesto Font Stearling; secretary of foreign affairs, Andreas Moreno de la Torre; secretary of the interior, Manuel B. Silva; general-in-chief, Maximo Gomez; lieutenant general, Calixto Garcia.

No More Reinforcements For Cuba. MADRID, Dec. 4.—According to a dispatch received here from Havana it is believed that no further reinforcements of Spanish troops will be required for Cuba, the present forces being regarded as sufficient to suppress the insurrection before the rainy season begins.

### REVIEW OF TRADE.

R. G. Dun & Company's Report on the Condition of Business.

NEW YORK, Dec. 4.—R. G. Dun & Company's weekly review of trade says: The monthly report of failures shows defaulted liabilities of \$11,610,195 in November, against \$12,700,856 last year. Because of three large failures for \$3,250,000 not due to present conditions, the aggregate in November was only \$1,100,000 less than last year, and except for these would have been smaller than in August, September or October. The decrease in nearly all branches of business shows that payments have been remarkably good and defaults unusually small. Other evidences of the state of business are convincing, except in speculative lines. Wages have been voluntarily advanced for nearly 80,000 workers in woollens and iron. Stocks are somewhat stronger, having advanced \$1.47 for railways and \$1.57 for trusts. The true value of American railway stocks is steadily rising with earnings, which for November thus far are 20.9 per cent larger than last year and 3.7 per cent in the same weeks of 1897.

It is the season for waiting in most industries, but at least one other furnace has gone into blast, and the lowest price of Bessemer at Pittsburgh, after purchases of 30,000 tons, is \$10.15 per ton, with \$9.25 for grey forge. Eastern holders are some times impatient and yet sure that January will bring a large demand, and meanwhile the award of ship plate contracts to eastern firms gives them important help, though the demand for bars is slow at the east and at Pittsburgh, but is really strong at Chicago for agricultural and railway supplies. Structural orders are seasonably in abeyance, but contracts for pipe for London elicit sharp bidding at Pittsburgh.

The voluntary advance of 90 per cent in wages of worsted workers at Providence, restoring the rates of 1893, is evidence of the prosperity of that manufacture. After much hesitation in other branches, which may be justified, this important department of the woolen industry puts itself at the front, virtually declaring its ability to face any foreign competition. The purchases of Australian wool at Boston have again been large, 2,435,000 pounds out of 6,170,700 pounds of all wool at the three chief markets, against 3,821,300 pounds for the same week last year. But other markets are extremely quiet, and Boston doing the selling at prices not named. No gain appears in the cotton manufacture and the low price of cotton still hinders the buying of goods. Lower prices than have ever been known are quoted for print cloths, and also for some grades of prints, and the average of cotton goods is remarkably low.

The wheat market has deceived everybody, dropping in the face of an enormous foreign demand just when some advance might reasonably have been anticipated. The western receipts, 6,852,425 bushels against 2,994,621 last year for the week, and for five weeks 33,962,535 bushels against 20,871,456 last year for the same weeks, are just now more impressive in the market than the Atlantic exports, which have been 4,187,672 bushels, flour included, for the week against 2,079,457 last year, and for five weeks 17,617,471 bushels against 9,817,153 for the same weeks last year. But in the long run, the outward movement will affect prices, although the surprisingly large increase at the west indicates a considerably greater yield than has been anticipated.

Failures for the week have been 306 in the United States, against 379 last year, and 28 in Canada, against 55 last year.

### RESTORING INDEPENDENCE HALL.

Temporarily Many Visitors Will Be Sorely Disappointed.

PHILADELPHIA, Dec. 4.—There is great disappointment among visitors to this city from a distance and from foreign points over their inability to get an inside view of famous old Independence hall. The structure is just now being restored and a big board fence keeps would-be visitors at a distance.

Until the completion of the public buildings the city and county officials occupied offices in the wings of the historic structure, but these wings are now being demolished and it is intended to restore the hall to precisely the condition it was in during the days that witnessed the proclamation of the declaration of independence. Extraordinary precautions have been taken to preserve every stick and stone identified with the structure, and although the place is besieged by relic hunters, not a single one has so far succeeded in carrying off a souvenir.

CLEVELAND, Dec. 4.—Senator M. A. Hanna continues to improve, but says that he does not know when he will be able to get out. His return to Washington is indefinite.

## WRECKED THE TRAIN

Locomotive Boiler Explodes on the Chicago and Erie Road.

### THREE MEN WERE ON THE ENGINE.

One of Them Fatally Injured and the Other Two Badly Hurt—Miners' Scale For Next Year Still Undecided Upon. An Aged Farmer Robbed—Tramps Capture a Train—Other Ohio State News.

LIMA, O., Dec. 4.—The boiler of the locomotive on second section of east-bound freight train No. 84 of the Chicago and Erie road exploded as the train was pulling through Westminster station, six miles east of here, yesterday morning. Engineer J. H. Doolittle, Fireman J. C. Bieber, and Head Brake-man S. B. Plank were on the engine when she let go.

Fireman Bieber was shoveling coal into the firebox when the crown sheet blew out and he was hurled a distance of 60 feet into a field and was badly burned and scalded and can not recover.

The engine was thrown over on her side and Engineer Doolittle was pinned under the debris, but was soon rescued. He was badly cut and bruised on his left side.

Brakeman Plank was bruised and cut, but will recover.

The injured men were taken to Huntington, Ind.

Four freight cars were derailed and piled up in the wreckage. Traffic on the road was blocked until 11 o'clock.

### MINERS' SCALE UNSETTLED.

A Conference May Be Held Christmas Week to Settle It.

COLUMBUS, O., Dec. 4.—The coal miners and operators are not agreed, nor are the two sides agreed among their own members as to whether the wage scale for 1898, which is to be made this month, is to be made by the miners' national convention and operators, or merely by agreement between representatives of miners and representatives of operators.

Probably there will be a conference of operators with the national executive board of miners Christmas week, and an agreement reached referred to the annual meeting of the miners in January for approval.

The agreement which ended last summer's strike seems to be lame in a provision for a new scale.

The conference will probably be held in Pittsburgh.

### AGED FARMER ROBBED.

All Manners of Torture Resorted to by the Three Masked Robbers.

AKRON, O., Dec. 4.—John Hartong, an eccentric character, aged 87 years, living alone near Greentown, this county, was robbed of \$300 shortly before midnight Thursday. Three masked men forced entrance, assaulted him, bruised and gagged him, and forced him to reveal his hiding place. The old man received a severe cut on the head.

After getting the money the men went to the barn, stole the horse and carriage, and made their escape. Hartong was found yesterday morning in a helpless condition and nearly dead. A posse is in pursuit of the robbers.

### Tramps Take Possession of a Train.

LIMA, O., Dec. 4.—A gang of tramps took possession of a Lake Erie and Western freight train near this city. A stockman was held up and robbed as he was passing out of the train to look after several cars of stock. He was knocked insensible. When the train reached here the police attempted to arrest them. There was a desperate encounter and a policeman was badly hurt. Several shots were exchanged. One of the tramps got away. The others were arrested.

### Mails Killed of Checks.

TOLEDO, Dec. 4.—Local banks here, in returning the checks to their customers, issued by the latter during the month of November, made a startling discovery yesterday. It developed that a large number of checks had been stolen in transit ranging in amounts from \$15 to \$250 and cashed by local banks. This is a solution of the mysterious rifling of letter boxes.

### A Life Sentence.

YOUNGSTOWN, O., Dec. 4.—Thomas Edmonds, who pleaded guilty to murder in the second degree, for the killing of Conductor John Haley of Niles, was brought into court yesterday and sentenced by Judge Henney, to imprisonment for life in the penitentiary. When asked if he had anything to say Edmonds merely shook his head.

### Hunter Frightfully Wounded.

WEST UNION, O., Dec. 4.—Sheridan Cox received a frightful wound in the face while hunting yesterday, caused by the bursting of his gun. A large splinter from the stock struck him in the face, tearing open his jaw and fracturing his cheekbone.

### Charged With Stealing a Hundred Horses.

WOOSTER, O., Dec. 4.—Fred Ruprecht, Jr., is under arrest in Chicago on a charge of criminal assault and horse-stealing. He is charged with stealing 100 horses in various parts of the country during the past year. He is a Wooster boy.

ZINCENNES, Ind., Dec. 4.—Mrs. Anna Ross, a wealthy widow of this city, in company with a party of 20 others, is preparing to go to Alaska in February.

### MOTHER MCKINLEY SINKING.

The Disease Surely Wearing Her Out and the End Is Near.

CANTON, O., Dec. 4.—There is no material change in the condition of Mrs. McKinley, but the course of the disease is surely wearing her out and she shows greater weakness every hour. The president reached her bedside yesterday, but she was unconscious and did not recognize him.

President McKinley will be in Washington for the opening of congress Monday, whatever may be the issue of his mother's illness. Although there has never been, in the history of the government a case exactly similar, it is generally understood by those best informed on such matters that it is necessary for the president to be at the capital in person for the opening of a session of congress to receive the joint committee from the two houses and that until this committee has waited on the president and received his communication the regular business of congress can not proceed.

"Mother" McKinley is unconscious and the attending physician can give the family no hope that she will ever return to consciousness. The president can do absolutely nothing for her by remaining here. In view of these facts, the president feels it is his duty to return to Washington so as not to delay the proper opening of congress at the regular time. He has arranged to leave Canton at 2:05 this afternoon in the special car provided for him attached to the regular Pennsylvania train which reaches Washington Sunday morning.

### SLAYERS OF GULDENSUPPE.

Thorn Sentenced to Death and Mrs. Nack to Get Twenty Years.

NEW YORK, Dec. 4.—Martin Thorn, or Torceswisky, convicted on Monday of the murder of William Guldensuppe, was yesterday sentenced to be electrocuted in the week beginning Jan. 10, 1898. Thorn listened when sentenced without moving a muscle and when the judge had finished he inclined his head slightly forward, as if bowing to the court. The prisoner's lawyer then handed up an affidavit applying for an appeal. Justice Maddox took the affidavit and will pass on it later. Thorn was then led to the jail below.

After a consultation with Judges Maddox and Smith, District Attorney Youngs has decided, it is said, to accept a plea of manslaughter in the first degree for Mrs. Nack, the accomplice of Martin Thorn in the murder of William Guldensuppe. The extreme penalty for this degree of crime is 20 years' imprisonment with a commutation of seven years and seven months.

### CHILD BURNED TO DEATH.

In Trying to Save Her Little Sister She Herself Caught Fire.

SULLIVAN, Ind., Dec. 4.—Two little girls, the daughters of the late George Copeland, were burned, one fatally, eight miles west of this place yesterday. The children were living with their grandmother, both of their parents having died within the last eight months.

While Mrs. Copeland was out of the room, the clothing of the 5-year-old girl caught fire from the grate, and in her efforts to extinguish the flames, the dress of her 7-year-old sister caught fire, and she died before relief could be afforded. The younger one still lingers, but there is no hope for her recovery.

### SUGAR BEETS IN INDIANA.

Governor Mount Thinks the State Should Produce Its Own Sugar.

INDIANAPOLIS, Dec. 4.—Governor Mount has become greatly interested in the cultivation of sugar beets by the farmers of Indiana. After having studied the subject for some time he is convinced that the farmers of Indiana ought to produce at least all the sugar consumed within the state.

Governor Mount has decided to attend the mass meeting of farmers of northern Indiana at North Judson, Starko county, next Tuesday, to discuss the sugar beet question. He is confident that the land in the state may be greatly enhanced in value by the growing of sugar beets.

### Attorney Shot by a Burglar.

SCHENECTADY, N. Y., Dec. 4.—George R. Blodgett, head of the law department of the General Electric company, was shot by a burglar and mortally wounded early yesterday morning. Mrs. Blodgett was awakened by the burglar and calling to her husband he rushed out into the hall, where stood the thief. The burglar called to Mr. Blodgett to hold up his hands and at the same time started to back down the stairs. Mr. Blodgett followed and the burglar fired on him. The shots were returned by Mr. Blodgett, but on the third shot one of the burglar's bullets found its way into Mr. Blodgett's right side. The burglar escaped.

### Woman Accidentally Shot Herself.

TERRE HAUTE, Ind., Dec. 4.—Mrs. W. E. McDonald, who lives near Kansasville, met with a fatal accident yesterday morning. A buggy whip and a shotgun were placed upon pegs projecting from the wall of the house. Mrs. McDonald attempted to take down the whip, and in so doing the gun fell to the floor, discharging one of the barrels. The entire charge of shot passed through her right leg.

WOOSTER, O., Dec. 4.—Jacob Lawrence, a prominent business man, aged 63, was found dead in bed yesterday morning.

## GALLOWS CHEATED.

A Triple Murderer Escapes From Jail.

### JOHN MORGAN OF WEST VIRGINIA.

He Was Under Sentence to Be Hung December 16. He Placed a Dummy in His Bed and Fooled the Guards—Five Hundred Dollars Reward Offered For His Recapture.

RIPLEY, W. Va., Dec. 4.—John F. Morgan, the triple murderer of Jackson county, who was sentenced to be hanged Dec. 16, escaped jail between the hours of 5 p. m. and 12 midnight, Dec. 2. He was in care of Charley Jewell and Jailer Ripley. Morgan placed a dummy in his bed and it is supposed he climbed on top of the cage. Before he did so he told the guards he was going to bed and not to wake him up for supper. About 12 midnight, the guards left his cell, after locking the cage door, supposing him in the cage. They left the cell door unlocked and while they were gone, it is supposed, it was then he made his escape. He had on the suit of clothes he was to be hanged in and \$25 in cash given him yesterday afternoon by O. J. Morrison for his confession.

Sheriff Shinn lives 10 miles south of the town, but was sent for at once and is using every effort possible to catch the fiend. Armed men are searching in every direction, but so far nothing has been learned of the wanted man. A reward of \$500 has been offered for his recapture.

Morgan's crime was one of the most fiendish in the history of the state. Before daylight on Nov. 3, 1897, near Grass Lick, Jackson county, W. Va., Morgan murdered Mrs. Green, 64; her daughter Matilda, 34, and her son James, 17. Another daughter, Alice, had a desperate struggle with the fiend, but escaped with her life.

Morgan had for years lived with the family and became infatuated with Alice, but Mrs. Green prevented their marriage.

Morgan married another woman, but, it seems, allowed his bitterness against the Greens to grow until it reached dangerous viciousness. Morgan lived with his wife on the Green farm at the time of the murder, and slept the night of the murder in the Green home. The deed was done with a hatchet and sticks of stove-wood.

### TOLLGATE TROUBLES.

People Afraid to Ask For Guards Fearing the Raiders.

FRANKFORT, Ky., Dec. 4.—State Inspector Lester, who was sent by the governor to investigate the tollgate troubles in Jessamine county, returned yesterday and made his report to the sinking fund commissioners. Mr. Lester says the people of that section are afraid to ask for guards, fearing that the raiders will burn their property should they do so.

The fiscal court of the county promises at their next meeting to lease the roads from their owners. The commissioners are now considering the advisability of sending troops to guard the roads until that action is taken.

### MCKENNA'S SUCCESSOR.

Governor Griggs of New Jersey Will Become a Member of McKinley's Cabinet.

WASHINGTON, Dec. 4.—From sources, the authority of which should not be doubted, it is learned that the position of the attorney general to succeed Mr. McKenna, who will be nominated to the United States supreme bench to succeed Justice Field, has been offered to Governor Griggs of New Jersey and that he has consented to accept.

It is understood that his appointment was urged by Vice President Hobart. Owing to the absence of President McKinley it is impossible to confirm this statement absolutely.

### A Wild Woman Discovered by a Hunter.

WICHITA, Kan., Dec. 4.—J. R. King, who lives 13 miles west of Chelsea, I. T., went down to the river hunting. He heard a crackling noise in the bushes behind him, and turning saw a nude woman. Her features were those of a maniac. He succeeded in getting her away and the woman was locked up. She has the appearance of being of Spanish or Mexican descent and is very beautiful.

LAPORTE, Ind., Dec. 4.—The case against Edward Peck of Grand Rapids, charged with having counterfeited money in his possession, was dismissed in the superior court yesterday. He had previously been acquitted on the charge of passing counterfeit money.

### Chinese Shut Out.

WASHINGTON, Dec. 4.—Consul O'Hara has sent to the state department a copy of the law of Nicaragua passed Oct. 9 last, absolutely prohibiting the immigration of Chinese. The officer who infringes on the law is subjected to a fine of from \$25 to \$500.

### Accident Due to a Blizzard.

MINNEAPOLIS, Dec. 4.—The first accident due to the present blizzard occurred at Durham, Minn., yesterday. A Great Northern passenger train was derailed, Engineer William Clark was killed and three other trainmen were injured.

### Another Pioneer Gone.

KOKOMO, Ind., Dec. 4.—Joseph Brown, the first white settler in Union township, died this week. He was over 80 years old. For years he had been the proprietor of the old mill at Jerome.

INDICATIONS—Rain, followed by clearing weather; probably colder Sunday morning; brisk northeasterly winds.

"Give the Dingley law a chance," cries the Louisville Commercial. The Commercial wasn't willing, however, to give the Wilson law any chance at all.

The New York Sun has been one of the most rabid of the gold-bug organs, but since it came out against the scheme to allow national banks to issue all money, it is being bitterly denounced by the very journals that one praised it so highly.

This report of the Commissioner General of Immigration for the year ending June 30, 1897, has just been published. According to the report, 230,832 steerage passengers came to this country in that year. The number credited to Kentucky as their destination is an insignificant part of the grand total, being only 205.

W. A. GAINES, the colored politician of Covington, will not be Register of the Treasury this time. Gaines had, among other indorsements, that of Mark Hanna, but Hanna wanted the place for B. K. Bruce, the colored Mississippian, and Bruce got it. Bruce made speeches for Hanna in the late Ohio campaign, and Hanna saw that he received his pay.

COLLECTOR SAPP, of Louisville, openly defied the civil service authorities by appointing for deputy a Mr. Todd, who was not on the eligible list, but the Commissioners promptly called him down off his lofty perch. The Commission has refused to confirm Todd's appointment, and has notified Mr. Sapp that he must appoint some one else, and that in doing so he must conform with the rules of civil service.

AFTER a Republican conference at Louisville this week Senator Deboe admitted that as far as the distribution of Federal pie in Kentucky is concerned matters are in a somewhat chaotic condition. Especially is this true of the District Attorneyship and the Pension Agency. A Republican who is very close to Dr. Hunter and Senator Deboe said that Leslie Combs would not be appointed Pension Agent, and that Hon. R. D. Hill's hold on the District Attorneyship has slipped. Our Republican friends appear to be more greatly concerned over the "pie" than anything else.

THE Vanceburg Sun continues to roast the officers of that city. It calls on Mayor Pugh this week to exercise himself "a little bit," and enforce the laws. The statement has frequently been made of late in dispatches from that city that the officers of Lewis County were making no special effort to run down the murderer of Captain Hoobler. The editor of the Sun seems disgusted at the way things are run, and this week publishes the following, editorially:

Wanted.—New officers. At Vanceburg at once. None who deem drawing of their salaries all their duties need apply. We're overstocked with that class now. Apply to citizens or at Council Chamber first meeting night in January.

My, but these Kentucky Republicans are having a time of it over the distribution of the "pie." From a publication in a recent issue of the Owensboro Messenger it appears that T. J. Yandell was appointed Collector in that district simply to hold the place down until Franks could get rid of the indictments against him for monkeying with the Senatorial election in the last Legislature, and President McKinley entered into this arrangement with Deboe, or Deboe has misrepresented the facts. The Messenger alleges that Yandell resigned in disgust and roasted Deboe in his letter of resignation, and that Deboe held back the letter when the resignation was sent in, so that McKinley would not see it. No wonder that Yandell denounced the whole affair as "disgraceful." But such is politics.

### A Clever Trick.

It certainly looks like it, but there is really no trick about it. Any body can try it who has lame back and weak kidneys, malaria or nervous troubles. We mean he can cure himself right away by taking Electric Bitters. This medicine tones up the whole system, acts as a stimulant to the liver and kidneys, is a blood purifier and nerve tonic. It cures constipation, headache, fainting spells, sleeplessness and melancholy. It is purely vegetable, a mild laxative, and restores the system to its natural vigor. Try Electric Bitters and be convinced that they are a miracle worker. Every bottle guaranteed. Only 50c. a bottle at J. Jas. Wood's drug store.

MR. JOHN HELMER, who has been critically ill several weeks, is thought to be improving. He was able yesterday to take some nourishment for the first time in twenty-two days. He suffered from convulsions at first, and for two or three weeks the muscles of the throat seem to have been paralyzed. His case is regarded as a most remarkable one in many respects.

RECENTLY a packet plying on the Green river ran into a flock of wild geese one night, and the electric light so dazed them that they flew toward the boat, striking the fore-castle and chimneys and getting tangled in the guy ropes. There was great excitement among the passengers and crew, each trying his best to "catch a goose." In the exciting struggle, which lasted but a few moments, they succeeded in capturing three out of the number.

THE city of Fitzgerald, Ga., where Mr. George M. Clinger recently spent a few weeks, was started less than two years ago by Mr. Fitzgerald, publisher of a G. A. R. journal at Indianapolis. There was not a person or habitation there prior to that time, and now it is a city of 9,000 population, has thirty odd factories and a splendid hotel that cost nearly a quarter of a million. Within the last year 600 buildings have been erected, and nothing but brick buildings are allowed to go up within the city limits. The climate is exceptionally charming, and the site of the city is a plateau with an altitude of 690 feet. Forty miles from Fitzgerald, at Ft. Valley, is the most magnificent peach belt on earth. There are four orchards of 300,000 peach-bearing trees, connected by fourteen miles of telephone, the whole thing being operated by Ohio capital.

TYPHOID fever is reported epidemic in Robertson County. Many new cases being reported daily.

THE revenue receipts in this district last month were \$209,362.86 as compared with \$154,679.11 in November, 1896.

FOR the first time in the memory of the oldest inhabitants, Paris experienced a salt famine Tuesday and Wednesday, the wholesale dealers not having a barrel for sale on those days.

THE Christian Church at Washington has extended a call to Rev. R. L. Cartwright, of Ghent, Ky. He has the matter under consideration. Tho Beasley Church will probably call him for half his time.

THE L. and N. will introduce a fast daily train next Sunday to leave Louisville at 8:15 p. m. for the South. It will be a solid vestibuled train and be connected with by a train from Chicago, St. Louis or Cincinnati.

To accommodate the demand for additional storage capacity, the Maysville Cotton Mills have let the contract to Mr. W. H. Frederick for a new cotton warehouse. It will be 43x86 feet, two stories high and ironclad. Work will begin at once.

DANIEL KANLER, aged seventy-two, well known in the neighborhood of Pin Hook, and Mrs. Lucy Mockabee, aged seventy-seven, were married last Sunday at the bride's home near Kentontown. Elder Zach Lee officiating.—Mt. Olivet Advance.

GEN. JOHN B. CASTLEMAN has purchased 776 acres of land in Mercer County from the Shakers for the purpose of establishing a big stock farm. The place will be known as the Clifton Stock Farm, and only blooded animals will be bred. The property is among the most valuable in Central Kentucky.

THE Sheriffs of Hickman, Boone, Scott, Jessamine, Nicholas, Mason, Todd, Carlisle, Montgomery and Whiteley counties paid into the State Treasury December 1st \$250,000 taxes, which is the largest amount ever received in one day from this source. Mason County contributed nearly \$50,000 of the amount.

REV. CHARLES ALLEN THOMAS is conducting a big revival at Lagrange. The Christian Church became inadequate to accommodate the audiences. The congregations of the Baptist and the Methodist churches then tendered the use of their large and commodious houses, and the county officials tendered the court house for the meetings. The latter was accepted and has been crowded at each meeting since.

STATE TREASURER LONG will on Monday next send out to the County School Superintendents of the State checks aggregating \$265,000, this being the 20 per cent. due them on the 1st inst. for the payment of the salaries of teachers. They have already received 60 per cent. of the amount due, and the final 20 per cent. will be paid on January 1st next. The 20 per cent. due the city school boards of the State, exclusive of Louisville, will be sent out about the middle of next week.

HERMAN LANGE's jewelry establishment at the northwest corner of the Arcade and Vine street, Cincinnati, is resplendent with one of the finest displays of diamonds and other precious gems, watches, clocks, silverware and jewelry, the most elegant to be had anywhere. He has made special preparations to supply the holiday trade, and cordially invites all his former patrons in Maysville and surrounding country and the public generally to call and see him when in Cincinnati. Remember the place, 425 Vine street, and No. 2 Arcade, N. W. corner.

## A Christmas Feast....

### "MISSING WORD."

Contests Come Under Anti-Lottery Law and Uncle Sam is After Them.

The Postoffice Department is taking a firm stand against the so-called "missing letter" and "missing word" contests which are being conducted by a number of publishers to increase the subscription list to their papers. The lottery law directs that the Postmaster General upon evidence satisfactory to himself that the concern or persons is operating through the mails a lottery, or scheme offering prizes dependent upon a lottery or chance, to prohibit delivery of all mail matter to it.

All newspapers and periodicals containing advertisements of this character are forbidden transmission in the mails. This law is now announced by the Postoffice Department, and will be applied to all schemes which are violations of it if they are continued in operation or the advertisements of them are published. Letter contests are held to be such violations.

### C. and O. Train Record.

During the month of October 92 per cent. of the C. and O. trains arrived at terminals on time, or practically so, being only a few minutes late, missing no connections. Train No. 1 arrived at Cincinnati from Washington 29 times on time; No. 2 arrived at Jersey City from Cincinnati 27 times on time; No. 3 arrived at Cincinnati from New York 31 times on time; No. 4 arrived at Washington from Cincinnati 27 times on time.

The most remarkable time during the month was made by train No. 3. On account of waiting for connections it was delayed, leaving Washington, an aggregate of three hours, all of which time was made up before reaching Cincinnati.

### Order of Services For the Men's Rally Tomorrow Will Be Slightly Varied.

The order of services for the men's rally will be slightly varied to-morrow. An informal service, in which it is hoped that many will take part, has been arranged in the way of a "promise" meeting. Every person, whether a professing Christian or not, has a promise which is especially dear to himself because in the dark hour of trouble it has afforded peace and consolation. Let all who will then come prepared to give the promise which has proven of special benefit and a glorious feast of good, spiritual truths will surely result therefrom.

Special music will be arranged so that the lovers of sweet songs will be pleased and instructed. Come then prepared to give, and give your promise from God. All men welcome.

A special service for the boys is to be held in the association parlor to-morrow afternoon at 2 o'clock: Prof. Hayes Thomas will conduct the meeting and he will have something of interest to bring before the juniors. All boys invited.

C. AND O. RY. CO.,

By Geo. W. Lewis, Supt.

Why is it that one man is old and decrepit at 45, and another hale and hearty at 50? It depends on the care he takes of himself. Often a man's body gets out of repair—the trouble grows until it lays him out in bed. Whenever a man feels that he is not as well as he ought to be, whenever he is listless, without energy and without vitality, whenever he finds that he is losing weight and that his ordinary work gives him undue fatigue, he needs Dr. Pierce's Golden Medical Discovery. If he keeps on working with his liver inactive and his blood impure—he keeps his nerves and his body under a constant nervous strain. He will not be hearty when he is old. The "Golden Medical Discovery" cures many so-called diseases because nearly all illness springs from the same thing—bad digestion and consequent impure blood. The "Discovery" makes the appetite good, the digestion strong, assimilation easy, and the blood rich and pure.

## SOCIETY WOMEN USE IT.

Mrs. Kester Haines, Prominent New York Hostess, Relieved of Insomnia By Paine's Celery Compound.

There exists among women who are much in society a form of weariness resulting from overtaxed nerves, more intense and depressing than any known to tired muscles.

The overcrowded lives of such women make them slaves of anxieties and annoyances which they cannot ignore.

The following letter from one of New York's busiest hostesses shows how implicitly Paine's Celery Compound is relied on among the most intelligent, well-to-do families as well as in the many more humble households all over the country:

New York, October 9, 1897.

Gentlemen: I think it but fair to you that I bear testimony to the beneficial results of my use of Paine's Celery Compound.

Two years ago I was almost a wreck from nervous prostration resulting from overwork, mental and physical. I had lost my memory completely, and friends feared I would never recover. After trying several remedies to no avail, my physician prescribed Paine's Celery Compound, and within a few days there was a decided improvement in my condition.

After the use of three bottles I was so much better that it was unnecessary for me to continue its use. Since then I have recommended it widely, and have yet to hear that it has failed to do all that I claim for it.

To anyone suffering from any of the ills attendant upon continued loss of sleep I can and do heartily recommend it. Very truly yours,

MAYME L. HAINES.

In all cases of nervous prostration, nervous indigestion, neuralgia, sleeplessness, hysteria or incessant headache, the objective point of a true remedy like Paine's Celery Compound is to make more blood, gather flesh and increase the number of red, health-giving corpuscles in the blood.

Paine's Celery Compound fills the vessels with red blood, drives out the dangerous humors and thus gives relief to a host of aches, pains, and weaknesses. Women and men who have lost flesh and grown colorless and are subject to aches and pains, gain quickly in health from Paine's Celery Compound. There is hardly a family of any size where there is not some member who is feeble, forever tired and below the standard of health to whom Paine's Celery Compound would be of invaluable help. Not only does this great invigorator drive out the aches and distresses that have accumulated because of neglected rheumatism or neuralgia, but the liberal gain in flesh and blood that is always a noticeable and encouraging result of its use, brings about better health in the digestive, assimilative and secretive organs; in other words, all over the body.

### MISSING MAN FOUND.

John Patterson, the New York Traveling Salesman, Once More at Home.

NEW YORK, Dec. 4.—John Patterson, a salesman for the Northwestern straw works of Chicago, who has been missing from his home in this city since Oct. 2, returned home yesterday. He had been sent from a town in Pennsylvania. He is supposed to be suffering from temporary mental derangement and his condition is rather serious.

After leaving Milwaukee, where he had gone on business, Patterson went to his Chicago office and then started for home. He was taken on the train and stopped off at a Pennsylvania town. A coma followed his sudden illness, and he was unable to give his address. For two weeks he stayed at a boardinghouse. Finally the people with whom he was staying found the announcement in a paper that Patterson was missing, and from the description identified him and sent him home.

### FREE MAIL DELIVERY ASKED.

Postal Savings Banks and a Pure Food Law Also Demanded.

MARION, Ind., Dec. 2.—The Grant county farmers' institute adopted resolutions asking Congressman George W. Steele of this district to use his influence toward the establishment of free postal delivery for the country districts, and for the passage of a law providing for the creation of postal savings banks.

Another resolution asks the next legislature to pass a pure food bill that will protect the public from the many food adulterations that are now on sale in the state.

Mrs. Mary A. Pugh was elected president of the institute for the coming year.

### The Greatest Discovery Yet.

W. M. Replue, editor Tiskilwa, Ill., "Chief," says: "We won't keep house without Dr. King's New Discovery for consumption, coughs and colds. Experimented with many others, but never got the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our home, as in it we have a certain cure for coughs, colds, whooping cough, etc." It is idle to experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not as good, because this remedy has a record of cures and besides is guaranteed. It never fails to satisfy. Trial bottles free at J. Jas. Wood's drug store.

### NEWLY PATENTED BARREL.

Aluminum Lining For Beer and Wine Casks.

LONDON, Dec. 4.—A newly-patented barrel is being made in England, the novel feature being the use of an aluminum lining. By the use of such a lining in beer and wine casks the contents are kept in excellent condition, and no action is set up between the liquid and the metal. When once the cask has been rinsed out, too, there is no smell left, while the reverse is notably the case in the use of wood.

The strength of the metal lining also makes it a most suitable cask for the forcing of beer from cellar to bar by the aid of liquid carbonic gas. The taps for these barrels, which are also made of aluminum, are, of course, very light and yet strong, and have a pleasing appearance.

### BAKED HIS LEG.

A California Student's Sprain Cured by Intense Heat.

BERKELEY, Cal., Dec. 4.—E. B. Hinman, a sophomore in the University of California, has had his leg baked in an oven at a temperature of 300 degrees Fahrenheit to cure a sprain. This is 33 degrees higher than the temperature of boiling water; twice the heat at which meat is ordinarily roasted for the table. The sprain disappeared with wonderful rapidity.

The injured limb was treated in a specially prepared apparatus consisting of a copper cylinder resting on iron supports with a gas burner underneath. Hinman's leg was wrapped in absorbent cotton and placed in the cylinder with nonconducting rubber bags closing the interior, so that the heat could not escape. After three bakings the sprain was entirely cured.

PHILADELPHIA, Dec. 4.—Rev. Father Kelley, of St. Mary's Roman Catholic church, walked into the Pennsylvania Insurance company's office and laid \$582 on the desk in front of Secretary Lear. Father Kelley explained how it came into his possession. "A stranger came to me," he said. "He was ill and feared he was about to die. He requested that I pay this money to the Pennsylvania Fire Insurance company, confessing that he had burned his buildings for the insurance."

### Election of Officers.

At the regular meeting of the Washington Fire Company, held Friday night at their hall, the following officers were elected for the ensuing term of six months:

President—M. C. Russell.  
Vice President—R. R. Frost.  
Secretary—C. W. McClanahan.  
Treasurer—G. W. Gelsel.  
Messenger—John J. McCarthy.  
Chairman Standing Com.—Joseph Lowery.  
Chief of Hose—John Bode.  
Director of "W. S. Bridges"—C. D. Russell.  
Director of "Simon Kenton"—Thomas Alley.  
First Director Hook and Ladder Wagon—M. J. McCarthy.  
Second Director Hook and Ladder Wagon—Joseph Brown.

### Taken to the Penitentiary.

NEWPORT, Ky., Dec. 4.—George Greer, Frank, alias "Dad," Meiner and Duke Croxon, the three convicted assailants of Mrs. Thomas Gleason, sentenced to 20 years' imprisonment each, and Terrell Brinkman, convicted of killing Brakeman Johnson of the Chesapeake and Ohio, and sentenced to 14 years, were taken to the Kentucky penitentiary at Frankfort yesterday. They will be assigned to work in the shoe shop.

### An Indian Skeleton Unearthed.

FRANKLIN, Ind., Dec. 4.—While loading gravel from Young's creek, opposite the starch factory in this city, at a depth of four feet, a skeleton was unearthed. It gave evidence that the person had been buried in a sitting posture. The teeth in the jaw bones are large and well-preserved.

### Big Oil Strike.

MUNCIE, Ind., Dec. 4.—Three miles west of Gaston, this county, on the farm of Robert Livingston, they have struck an oil well that flows over 300 barrels per day. No tank near, they have an army of men digging large cisterns to hold the oil. Great excitement over the find.

### Hotel and Other Buildings Burned.

NASHVILLE, Dec. 4.—The hotel and various other buildings at Red Boiling Springs were destroyed by fire at an early hour yesterday morning. The loss is estimated at \$20,000. The fire originated in the parlor of the hotel.

### Found Dead in Fodder Shack.

SHELBYVILLE, Ind., Dec. 4.—Henry Phillips, farmer, disappeared from home Thursday and yesterday his remains were found in a shock of fodder near his home. He was aged 65 and was a pensioner. He had been drinking.

### Horse Easier to Ride Than the Cars.

SHELBYVILLE, Ind., Dec. 4.—Joseph Bean of Joliet, Ill., was killed by a Big Four freight yesterday. Bean was aged 16 years, and was a jockey. He had been in Louisville and was stealing a ride from there home.

### Chose His Coffin and Killed Himself.

NEW YORK, Dec. 4.—Frank B. Genin, after spending a fortune left him by his father, went to an undertaking establishment, picked out a coffin and then shot himself, dying almost instantly.
